Uinta-Piceance Basin Oil & Gas Fields By 2001 BOE Reserve Class

U.S. Energy Information Administration

| 2001 BOE Reserve Class | |
|-------------------------|--|
| No 2001 reserves | |
| 0.1 - 10 MBOE | |
| 10.1 - 100 MBOE | |
| 100.1 - 1,000 MBOE | |
| 1,000.1 - 10,000 MBOE | |
| 10,000.1 - 100,000 MBOE | |
| > 100,000 MBOE | |
| Basin Outline | |

The mapped oil and gas field boundary outlines were created by the Reserves and Production Division of the U.S. Energy Information Administration pursuant to studies required by Section 604 of the Energy Policy and Conservation Act Amendments of 2000 (P.L. 106-469). The boundaries are not intended by subsurface studies to delineate the actual extent of oil and gas resources detailed in a report, "Scientific Inventory of Offshore Federal Lands Oil and Gas Resources and Reserves and the Extent and Nature of Restrictions to Their Development", prepared by the U.S. Departments of Interior, Agriculture, and Energy.

Unless otherwise noted, fields generally referred to as "wildcat" were renamed to a corner of their basin and state of occurrence, e.g. UP_UT (Uinta-Piceance Basin and Utah).

Map created June 2005; projection is UTM-13, NAD-27.
