

**Index Map For 2
Powder River Basin Panels**

**2001 Reserve Summary for
All Powder River Basin Fields**

Basin	Number of Fields	Total Liquid Reserves (Mbbil)	Total Gas Reserves (MMcf)	Total BOE Reserves (Mbbil)
Powder River	543	193,456	2,398,604	593,223

The mapped oil and gas field boundary outlines were created by the Reserves Subcommittee of the Department of Oil and Gas. These boundaries are drawn to delineate areas covered by Section 604 of the Energy Policy and Conservation Act Amendments of 2005 (P.L. 108-469). The boundaries are not informed by subsurface structural information. The data and methods used in their creation are described in a report titled "An Overview of Onshore Federal Lands' Oil and Gas Resources and Reserves and the Extent and Nature of Restrictions to Their Development," prepared by the US Departments of Interior, Agriculture, and Energy.

Unnamed fields and fields generally named "wildcat" were renamed to a concatenate of their basin and state of occurrence, e.g. UP_UT (Utah-Piceance Basin and Utah).

Map created June 2005; projection is UTM-13, NAD-27.

Authors: Sam Limenick (1), Lucy Luo (1), Gary Long (2), David Morehouse (2), Jack Perrin (1), Steve Jackson (1) and Robert King (2).

2001 BOE Reserve Class

- No 2001 reserves
- 0.1 - 10 MBOE
- 10.1 - 100 MBOE
- 100.1 - 1,000 MBOE
- 1,000.1 - 10,000 MBOE
- 10,000.1 - 100,000 MBOE
- > 100,000 MBOE
- Basin Outline
