the exception of small amounts of petroleum coke that are consumed in the electric power and commercial sectors. See a full description in the "Other Petroleum Products" and "Petroleum Coke" sections of the Petroleum Technical Notes. • Totals may not equal sum of components due to independent rounding.

Sources: Data sources, estimation procedures, and assumptions are described in the Technical Notes.

 $<sup>-\!-\!=</sup>$  No consumption, including cases where adjustments were made. See explanation of adjustments in Section 7 of the Price and Expenditure Technical Notes. Where shown, (s) = Physical unit value less than 0.5, Btu value less than 0.05, or expenditure value less than 0.05. Notes: "Other Petroleum Products" is the subtotal of 16 petroleum products. All are used in the industrial sector with
